KHALED MOKHTAR ARCHITECTS

Creating exclusive, branded waterfront residences that embody the essence of their surroundings requires a distinguished architectural firm. KMA was thoughtfully selected to transform the La Maison Bleue Residences' vision into a stunning reality. Established in 2006, the firm has meticulously designed and constructed hundreds of remarkable projects locally and globally, with a primary emphasis on the resort and hospitality sector.

KMA is the mastermind who envisioned and brought to life Fanadir neighborhood, Mosaic Hotel, Fanadir Hotel and the New Marina extension. These breathtaking projects are transforming visions into reality and leaving an exceptional architectural fingerprint in El Gouna.

A VILLAGE AT THE HEART OF EL GOUNA

NAJAN carries the spirit of El Gouna into a new architectural expression. Varied building heights and sculpted forms create a distinctive low-rise skyline, while greenery weaves between homes and shared spaces. Throughout the village, the relationship between indoors and outdoors brings a sense of openness to everyday life.

Located at the meeting point of El Gouna's main parkway, and Shedwan, NAJAN places residents close to the town's attractions within a neighborhood with a character of its own.

A DAY AT YOUR OWN PACE

At NAJAN, village life unfolds around lush courtyards and inviting communal areas. A morning walk leads through greenery, an afternoon is spent by the sandy pools, and a quiet pause in a courtyard becomes part of the everyday.

Shared spaces create room for neighbors to meet and spend time together, while winding alleyways connect the village and invite discovery. With places to gather and corners to enjoy a moment of calm, NAJAN brings a sense of belonging to daily life.

A VILLAGE BUILT AROUND YOU

BOUTIQUE VILLAGE

With its organic layout and inviting communal spaces, NAJAN captures the familiarity of village life. Each passage opens onto a different view, each gathering place offers a chance to connect, and the neighborhood feels personal in scale and distinctive in character.

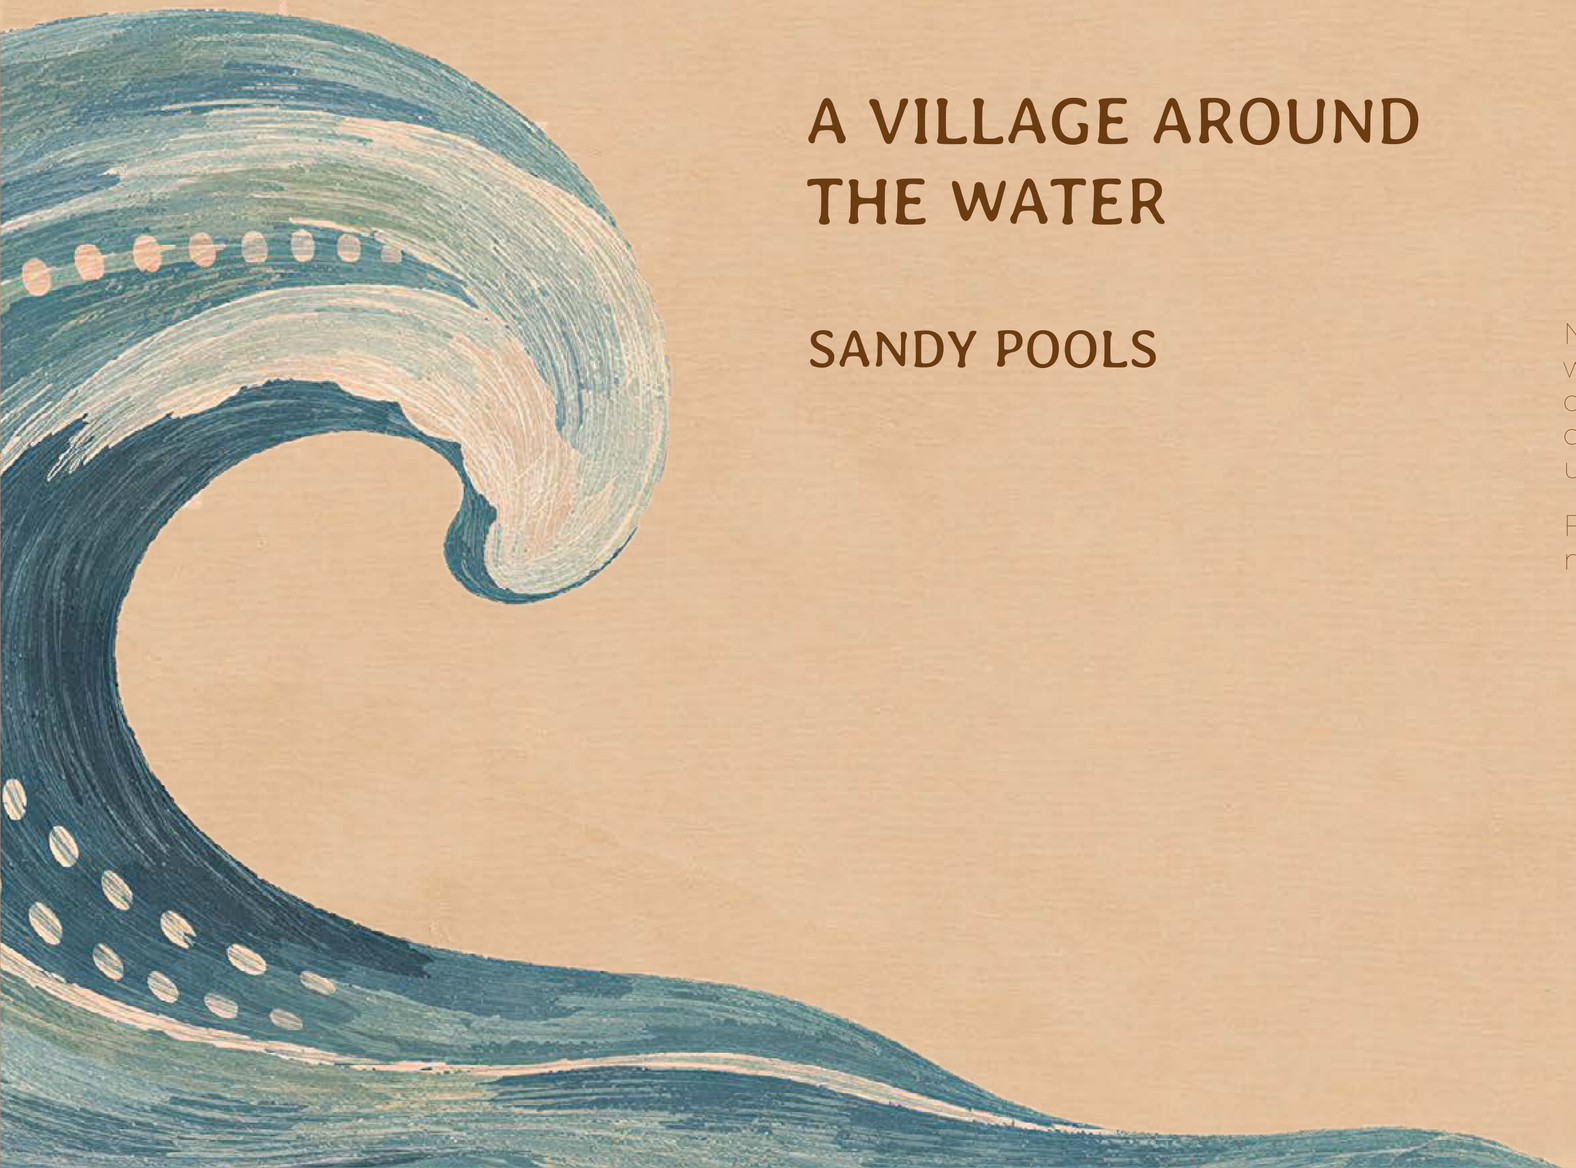

A VILLAGE, WALKABLE BY DESIGN

WALKABILITY

At NAJAN, winding pathways connect homes with sandy pools, landscaped courtyards, and communal areas. Each walk offers a chance to discover a new corner of the village, meet a neighbor, or simply enjoy the surroundings at your own pace.

A VILLAGE AROUND THE WATER

SANDY POOLS

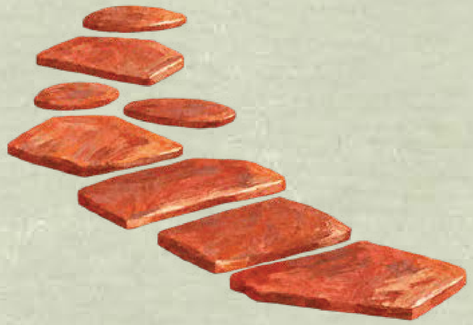

NAJAN's sandy pools bring El Gouna's relationship with water into the heart of the village. Their organic forms weave through the landscape, opening up views and creating places to gather, unwind, and enjoy the sunshine.

Framed by homes and greenery, they become a natural part of the everyday.
